PhDs & Postdocs meet researchers from industry

MEETING with...

Václav Matoušek, founder of
CF Plus Chemicals, ETH-Spin-Off company focused on
commercialization of reagents for electrophilic and nucleophilic
fluoroalkylation

 **WHEN**

Monday, 19 February 2018 at 15:00

 **WHERE**

1S102, University Campus Bohunice

What can you expect:

- inspiration about career options
- first-hand experience from transferring from academia to business
- open discussion

Václav Matoušek:

- worked on drug synthesis at F.Hoffmann La Roche
- during his PhD study at ETH Zurich, he discovered a wide range of new fluoroalkylation reagents which are used in design of new drugs
- founded a successful company ETH-Spin-Off CF Plus Chemicals to commercialize these and other reagents
- active in popularization of science
